

Visualize your Encounter!

Visual Form Editor is the preferred tool for the rapid design of encounter forms for use with the Centricity® EMR. This product allows visualization of the final form during creation and facilitates design improvements from start to finish. It also supports sharing information between forms and integrated note translations.

- Visual Design**
- Drag and Drop**
- Dynamic Resizing of items**
- Copy & Paste**
- Split View**

The screenshot shows a window titled 'Visual Form Editor - [Vital - Small.dlg]' with a menu bar (File, Edit, View, Insert, Tools, Window, Help). The main area displays a form titled 'Vital Signs - Extended' with the following sections:

- Vital Signs:** Includes input fields for Height (inches), Height Percentile (%), Weight (pounds), Weight Percentile (%), Temperature (degrees F), Temperature site, Pulse rate, Pulse rhythm, and Respirations.
- Blood Pressure:** Includes radio buttons for Standard, Postural, Multiple Sites, and Sequential, along with a Cuff size dropdown and Site dropdown.
- Blood Pressure Sequential:** Includes three rows of BP #1, #2, and #3, each with a slash and mm Hg units.
- Time:** Includes three rows of #1, #2, and #3 time input fields.
- Calculations:** Includes Body Mass Index and Body Surface Area (m2) input fields, with checkboxes to 'Add BMI to chart' and 'Add BSA to chart'. Below these are conversion notes: 'Converts inches/pounds to metric for BMI' and 'Converts inches/pounds to metric for BSA'.
- Other Fields:** Includes O2 Sat (%), Peak Flow, PF (predicted), and LMP input fields.
- Buttons:** A red 'Sign your data entry' button, a 'Data entered by:' field, and 'Prev Form (Ctrl+PgUp)', 'Next Form (Ctrl+PgDn)', and 'Close' buttons.
